

## GOBI JK EXTREME OFFROAD WINDSHIELD BODY PROTECTION INSTALLATION INSTRUCTIONS

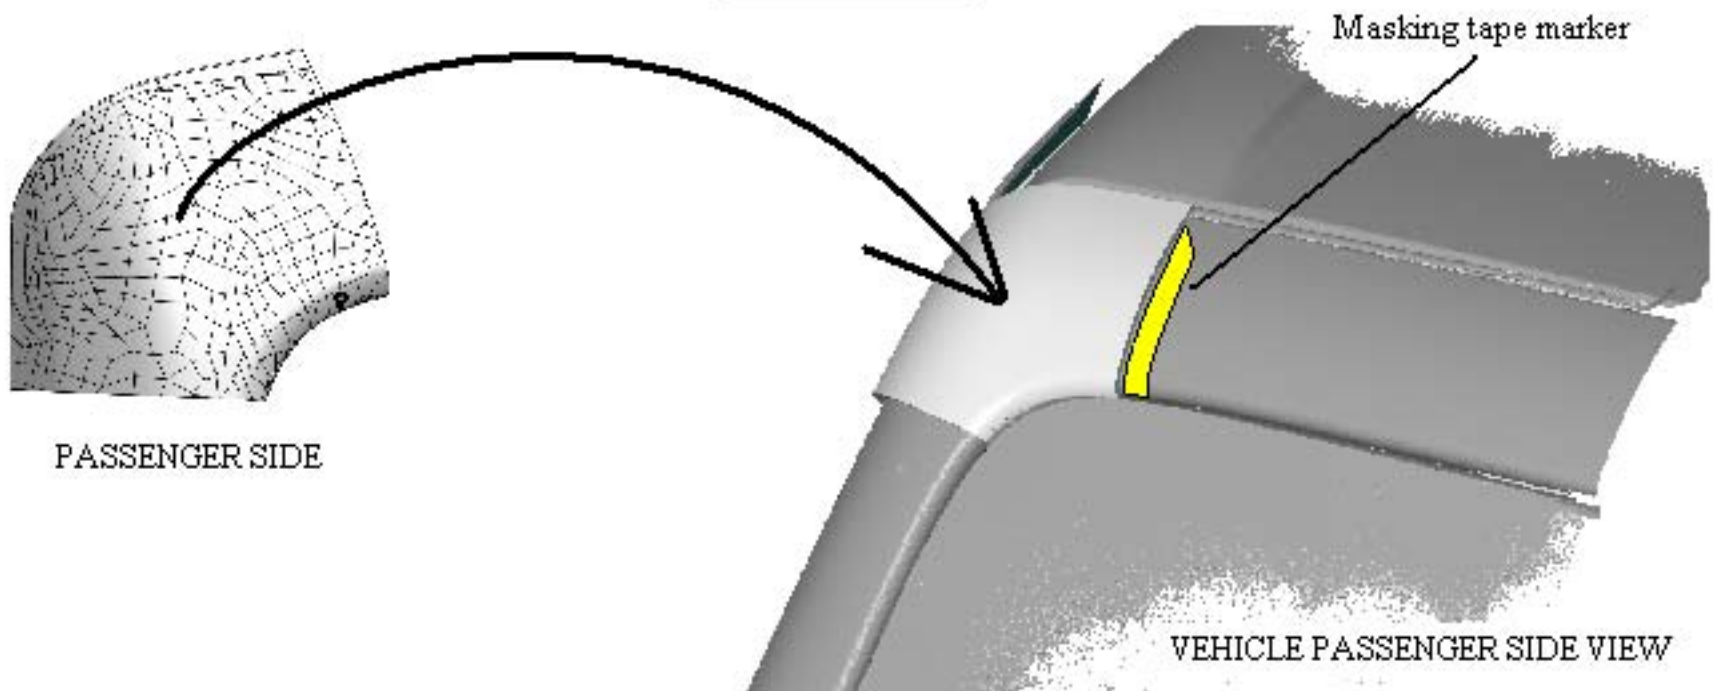

### Included in kit

Letter	Description	Location	Quantity
A	GOBI JEEP JK EXTREME OFFROAD WINDSHIELD BODY PROTECTION DRIVER AND PASSENGER SIDE	Main box	1 set

PASSENGER SIDE IN PLACE SHOWN ABOVE

### INSTALL

- 1- Remove the Gobi passenger side upper windshield body protection marked with a (P) from your box but do not peel off the protective adhesive backed film at this time. Maneuver and press down in place the body protection over the upper corner of the passenger side windshield as shown above until it is snug in place. Then place a small piece of masking tape along one edge as shown above for alignment. Remove the body protection and peel off the protective adhesive film then carefully install the body protection along the masking tape marker and press down firmly in place for 30 seconds. Apply the same procedure to the driver side. Installation completed.

A close-up photograph of a white Jeep JK's windshield area. A black plastic body protector is mounted on the left side of the windshield frame. A red line points from a text box to this protector. The background shows a workshop setting with wooden pallets and a white wall.
